

SHAFFER SAYS STRIKE IS WON

Trust Finds It Impossible to Get Men to Run the Mills.

UNION MEN LOYAL

The Milwaukee Attempt to Impeach Pres. Shaffer's Conduct Hotly Denounced.

MACHINISTS ARE OUT

Pittsburg, September 2.—The Amalgamated declared this morning that they have the strike fairly won and that the steel trust has found it to be impossible to get sufficient men to run their mills.

Regarding the attempt of the Bay View officials to impeach Shaffer's conduct of the strike, they say it is merely the work of a few disgruntled men and that the great body of the men are loyal to the strike.

Machinists on a Strike.

McKeesport, Sept. 2.—Three hundred machinists and employees of the foundry at the National Tube Works, who are engaged in doing repair work throughout the plant, were stopped from going to work this morning by the strikers. There was no disorder. The strikers say the company had begun to take in backsliders, ostensibly as repair men, but in reality to get a sufficient number of men to start the plant. The situation at Duquesne is unchanged.

POSTAL CLERKS ARE IN SESSION TODAY

National Association Meets at Milwaukee—Earnest Work of Association Begins Tomorrow.

Milwaukee, September 2.—The National association of Postal Clerks began its sessions at 9 o'clock this morning at the Republican house. Mayor Hoge welcomed them to the city and President William Andrew responded, after which the delegates were presented their credentials and badges.

The earnest work of the association will begin tomorrow morning and continue through Thursday, closing in the evening with an elaborate banquet at the Republican house at which Postmaster Stillman will preside. United States Senator J. V. Quarles, Postmaster Ole Olson of Oshkosh and others will respond to toasts.

AMERICA TO LOSE WU-TING-FANG

Popular Chinese Minister at Washington is Transferred to Coast of St. James.

Washington, D. C., September 2.—Wu Ting-fang, Chinese minister to the United States, is soon to be transferred to London. He is to take the place of Sir Chi Chen Lo Feng Lu, who is appointed to St. Petersburg. The United States loses the popular minister simply because the St. Petersburg post was declined by Li Ching-fang, the adopted son of Li Hung Chang, to whom it was first offered. This necessitated the shifting about of the diplomats.

Both Minister and aide. Wu will be missed sadly from legation and social circles. The Chinese envoy has won great popularity and is regarded generally as the most cultured and advanced representative of his race. Cable dispatches from London, which already has heard of the change, indicate that he will receive a warm welcome.

NEWSPAPER MEN PILOT MRS. NATION: SEES GOTHAM'S RED LIGHT DISTRICT

She Takes Corsets and Their Wearers to Task—Declares That the Saloons Are Unconstitutional.

New York, September 2.—Carrie Nation was taken in tow by a dozen newspaper men last night, who piloted her all over town to the tenderloin saloons, east side gin mills and sailors' dives. Carrie was in excellent humor. In a place frequented by sailors and upbraided one of the tars for drinking devil's broth. "Me good woman, we are only sipping ginger ale," said the navigator. Quick as lightning Carrie had the stein up to her ruby lips and sampled the broth. "You are not drinking ginger ale, my dear. It's beer; I know the taste of beer."

Here are some of the things she said:

"We women went down into the valley of death to bear and rear men. Why should we be afraid of men? Why should we be afraid of hatchet saloons to save them from perdition?"

"When a man smells after liquor or has a cigar in his mouth, say to him 'Go away you red eyed devil.' Talk to me over a telephone, so I won't have to smell your vile breath. I advise women to smash every ci-

FORMING CREAMERY TRUST

Factories in Western Wisconsin Being Brought into a Combination. La Crosse, Wis., September 2.—It was learned today that the Western Wisconsin creamery has been sold. This sale is the first step in the consolidation of the creameries in Western Wisconsin. The plan is authoritatively said to contemplate an organization capitalized at hundreds of thousands of dollars. The names of the prospective incorporators and the exact plans cannot be learned today, but it is understood that S. Y. Hyde is at the head of the concern and that full announcement of the plans will be made in a few days.

BIG OUTPUT OF GOLD

Cripple Creek Production for August Amounts to \$2,558,000.

Cripple Creek, Colo., September 2.—The August gold production of this district was \$2,558,000, the greatest single month's record in the history of Cripple Creek.

PERMANENT PEACE IN PHILIPPINES

Everything Points to the Early Capture of Miguel Malvar, Last of Filipino Leaders.

Manila, September 2.—Everything points to the early capture or surrender of Miguel Malvar, the insurgent leader. When either event occurs everything will be favorable to the establishment of permanent peace. It is in the plans of the military authorities as a first step toward reducing the force to make two departments instead of four, which would result in a considerable saving. The headquarters of one department would be Manila and that of the other Iloilo.

Each day shows an increasing number of surrenders and captures in all the disaffected districts. Later accounts of the recent engagement in Datagan province between Captain H. C. Hale, with a detachment of the Twentieth Infantry, and the insurgent leader, Gonzales, show that it was more important than it was at first considered. Many deserters and renegades were seen and were giving commands in English. Colonel Gracías, two officers and fifty men were killed after an engagement lasting three hours.

MCKINLEY'S VISIT TO BUFFALO EXPO.

Presidential Party Will Reach the Pan-American City on Thursday—Plans Royal Greeting.

Buffalo, N. Y., September 2.—The ceremonies and other formal functions which will mark President McKinley's visit to the pan-American exposition have been finally arranged by the committee on reception.

President McKinley and party will arrive at the station of the New York Central railroad from Canton about 6 o'clock on Wednesday evening. They will be met at Dunkirk by a special committee. On arriving here a presidential salute of twenty-one guns will be fired by a squad of United States soldiers from Fort Porter, bells will ring and whistles be blown. Escorted by a platoon of mounted police, the president will be driven to the residence of Joan G. Milburn, where with his party he will be entertained during his stay in Buffalo.

Wants Women as Jurors.

A French deputy has announced his intention of bringing in a bill in Parliament making it not only admissible but legally obligatory for women to sit as jurors. He proposes that all juries shall be required to consist of six good men and true and six women similarly qualified.

Sheep with Green Fleeces.

Sheep with a green fleece are a novelty, but they are to be seen in Germany near some copper works. They live in the dust and fumes, and drink water contaminated by copper.

JANESVILLE AND MADISON LINE; PROJECT SEEMS TO BE ASSURED

Power Will Be Supplied by a Plant to Be Erected on the Wisconsin River at Kilbourn—Western Capitalists Own the Bonds.

Milwaukee, Wis., September 2.—The new bonds amounting to \$200,000, issued by the Madison Traction company to retire the bonds of the Madison Street Railway company, have been bought by O. C. Fuller Company of Milwaukee. Mr. Fuller yesterday said the sole purpose of reorganizing the Madison Street Railway company was to retire the old bonds which were formerly owned by the Eastern capitalists and which had passed into the hands of Milwaukee and Madison capitalists.

Owing to the change in the ownership of the system it was necessary to reorganize and make provisions for needed improvements and repairs. The new company was not organized, he said, for the purpose of extending the street car system in Madison, as it already covers all of the territory that it needs and plans are in view for reaching out to suburban towns.

The Janesville and Madison interurban line and the Kilbourn Power company are projects separate from the Madison Traction company. The reorganization of the old company, Mr. Fuller said, will have no direct effect on either of the two proposed concerns.

The incorporation of the Kilbourn

FAMINE AND DISTRESS IN TEXAS; ABOUT 50,000 PEOPLE NEED FOOD

Long Drought Ruins the Crops and the Grass, and the Residents Are Starving to Death.

Dallas, Texas, September 2.—Widespread and terrible distress have followed in the wake of the drought in Texas and several adjoining counties in southern Texas. It is estimated that about 50,000 persons will be dependent for their lives on the outside world for food and other assistance.

After enduring their misery for weeks in the vain hope that they would be able to better their condition the people of Zapata county have at last appealed for assistance, and a generous response is being made by the citizens here, at San Antonio, Galveston and Austin.

So far the governor has not issued a call for out of state aid, but if conditions continue to grow worse he may be able to do so.

However strange it may seem to the uninitiated that such a terrible condition could exist anywhere in the United States, there is nothing strange about it to one who knows the desert of southwest Texas, of which Zapata county is a part.

Zapata county is one of the tier that lies next to the Rio Grande river and it is the fourth from the Gulf of

STATE MUST CONTROL THE TRUSTS. LEGISLATURE TO SHIELD ALL LABOR

Vice-President Roosevelt Addresses 20,000 People on the State Fair Grounds at St. Paul.

St. Paul, Minn., September 2.—Vice President Roosevelt addressed 20,000 people at the state fair grounds at Hamline today. His speech was based principally on the conditions as affecting labor and capital. He said:

"It is not only desirable but it is absolutely necessary that there should be legislation which shall carefully shield the interests of the wage earners and which shall discriminate in favor of the humane and honest employer by removing the disadvantages

WIDE OBSERVANCE OF LABOR DAY NINE OIL GUSHERS FOUND LAST WEEK

It is Being Celebrated with Immense Enthusiasm in All of the Larger Cities.

Chicago, September 2.—Reports from all of the large cities throughout the country indicate that Labor Day is being celebrated with more than unusual enthusiasm. Toller generally held their demonstrations and picnics and parades under clear skies. In many cities banks, business houses and municipal offices were closed in honor of the day.

Parade at Madison.

Madison, Wis., Sept. 2.—(Special)—Labor Day was celebrated here today with a parade by the labor unions and a picnic at Schuetzen park, where an address was made this afternoon by Hon. J. B. Castle, of the state land office. A ball this evening concludes the celebration. Most of the shops were closed, and also the stores, by proclamation of Mayor Bull.

Newspaper Woman's Appointment.

Miss Ida May Jackson of Milwaukee was recently appointed, under the new law of Wisconsin, woman factory inspector, and will be the first woman in the state to take up official work of this kind. Her grandfather was an editor, and she has been doing newspaper work for a dozen years past.

PLAYS JOKE ON MILLIONAIRE

County Poor Agent Sends Potatoes to Stephen Bull of Racine.

Racine, Wis., September 2.—It is not often that he county poor agent supplies potatoes for a millionaire, but such an incident occurred in this city today and it is probably the first happening of the kind in the history of Wisconsin.

Tneo, Myers is the county poor agent. The millionaire in question calls at the court house regularly every day and banters the agent for wood, coal, flour, etc.

Today he said that vegetables of all kinds had gone up and that potatoes were out of sight and that the agent must send him a peck.

The agent took him at his word, drew an order on a business house and sent the potatoes to the palatial residence of the millionaire, who was never more surprised in his life. The millionaire is Stephen Bull.

FLOAT FOR HOURS IN LAKE MONONA

Three Men Capsized in Mid-Lake—They Were Rescued in a Very Exhausted Condition.

Madison, Wis., September 2.—(Special)—A quartet of young men who started about midnight last night to sail from Oak Park across Lake Monona to the city, capsized in the middle of the lake, and floated for three hours clinging to the boat before they were rescued almost exhausted, by two policemen who heard their cries and put out in a row boat. The rescued party who had a narrow escape from drowning were R. L. Schmedemann, Ed. Nielson, and N. Lynch of this city and C. H. Galbraith a New York traveling man.

SUPREME COURT MEETS TOMORROW

Madison, Wis., Sept. 2.—(Special)—tomorrow the supreme court meets to begin work on the August calendar, thirty cases, all but two from the eight and ninth districts being called for the first assignment. One of the important cases to be heard at this session of the court is the suit of Dr. Jas. R. Kellogg against the state board of medical examiners, to compel his registration with the right to practice medicine without taking examination. Kellogg is a graduate of a Chicago medical college. The suit of the Court of Honor of Illinois against Insurance Commissioner Giljohann to compel the granting of a license to insurance business in the state will also be heard at this session.

LIST OF DEAD GROWS

Number Who Perished in the Terrible Philadelphia Explosion Now Reaches Twenty-Five.

Philadelphia, September 2.—The bodies of four more victims of the steamboat explosion on the Delaware river last Wednesday were found today, making a total of twenty-five bodies so far recovered. Three of them were identified as Clara Wild, aged 13; Nellie Ballantyne 23, and Elizabeth Gillison, 23. The other body was that of a man about sixty years old. Four persons are still missing and six lie at the morgue waiting identification. It is probable that the missing ones may be among the unidentified, as several of the bodies were burned beyond recognition.

TURKISH DISPUTE STILL UNSETTLED

Paris, September 2.—The Turkish Ambassador has again gone to Switzerland and won't return until the dispute between France and Turkey is settled.

Constantinople, Sept. 2.—Further mutinies have occurred among the Turkish troops in European Turkey and Serbia because of the arrears in pay.

FACILITIES AFFORDED FARMERS BY RURAL FREE DELIVERY ROUTES

One Farmer Can Communicate with Fifty of His Neighbors Within Two or Three Hours.

There is one feature about rural fields knowing what is going on the free delivery in Rock county of which the general public knows nothing. That is the facilities afforded to the farmers on one route to communicate with those of another. The mail carrier closely scans all the mail he collects from the different boxes at the farmers' roadside. If there are any letters addressed to persons living on the route which have not been passed the carrier cancels the stamp and dates the letter with a pocket stamp. When he reaches the farmer addressed he delivers the letter. One farmer may thus communicate with fifty in a space of from two to three hours.

A great deal has been written about the distribution of daily papers by means of the rural free delivery, but scarcely the half has been told. The farmers are finding new advantages in this quick conveyance to them of the news of the world everyday. Most of them look at once to the market reports while others go out to the

OSHKOSH A WELL ADVERTISED CITY

How the Name Came To Be Given to
That Town—Yarns Printed
About the Place.

Oshkosh, Wis., is one of the most advertised places in the world. There are other peculiarly persistent names like Kalamazoo or Sing Sing which make themselves conspicuous, but no one of them is so absolutely unique and unforgettable as Oshkosh. These two short, harsh syllables carry such suggestions of barbarism in their very sound that they have attracted to themselves like a magnet most of the weird tales of western uncouthness and savagery that newspaper jokers and vaudeville performers have invented. The result is that a great many people to this very day think that the name is a pure invention, and that no such place exists, although a glance at the map of Wisconsin ought to disprove that impression.

There is a local myth about the manner in which so curious a name was given to the town that is too characteristic of the place to be passed over. They say that the city fathers had a meeting in the public tavern, that being the only available hall, to decide upon a name. As each man came in out of the bitter cold he drained off a glass of the favorite "hot scotch." Before long the whole company began to call out for a glass around every time a newcomer arrived, with the natural result that the business of the assembly did not get on very fast. At last in walked the mayor, who was also the Methodist parson, crying out: "Well, boys, what name have you decided upon?" Whereupon the whole company with one accord responded:

"Hosi Skosh! Hosi Skosh!" The first settlers gave their town the delightfully inappropriate name, Athens. About twenty miles further south, at the bottom of Lake Winnebago, was the rival settlement of Fond du Lac, whose French name and former associations with the French missionaries and traders gave it a real advantage in drawing the trade of the Indians. The shrewd Yankees determined to offset that advantage by an appeal to Indian vanity. At a great pow-wow of the whites and redskins it was proposed and formally voted that the settlement should be named in honor of the great Oshkosh, chief of the Winnebagoes.

From that time Oshkosh rapidly outstripped its older neighbor. In so doing it naturally drew upon itself the envy of the citizens of Fond du Lac, who have ever since been bitter against their stronger rival. It was the imaginative editor of a Fond du Lac paper who first drew attention to the possibilities in the word, "Oshkosh," and started many of the weird tales about the city. This editor once solemnly asserted in his paper that a Methodist minister riding into Oshkosh one Sunday morning, met one of his parishioners coming out with his clothes torn, his hat gone, his arm in a sling, his nose smashed in and part of one ear bitten off.

"What's the trouble?" asked the minister.

"Oh, just been over to Oshkosh havin' some fun with the boys." "Why, my dear fellow, what will your wife say when she sees you?" "Say, parson," said the fellow in a confidential whisper, as he pulled out of his pocket part of a finger and various other bloody pieces of his anatomy, "what do you s'pose this feller's wife will say when she sees him?"

That yarn was reprinted everywhere and made Oshkosh widely known as the "place to go to have some fun with the boys." To this day, whenever a Fond du Lac man sees the story he broadly smiles and thinks that his beloved town is being revenged. It is no wonder that such tales make people refuse to believe that there is any such city.—New York Times.

POSSIBILITIES OF OUR BIG COUNTRY

Some interesting facts regarding the great size and possibilities of our country were brought out at one of the recent hearings before the committee on irrigation of arid lands at Washington. It is not usually realized, especially by people in the east, that an enormous area of our country, six hundred million acres in extent, lies unutilized. This is an area larger than the whole of Europe, and big enough to furnish land for a dozen Old World kingdoms. Of course a good deal of it is, and always will be, unfit for the support of a large population, but with proper management, it is destined to become the home of thousands, and even millions of people.

This great tract lies entirely west of the Mississippi valley and extends over the Rocky Mountains, the Great Desert and into California. Much of it at present is a barren and desolate wilderness with too scanty a rainfall to provide sufficient moisture for any but the hardiest vegetation. Irrigation is to effect the change. Years of successful experience in the artificial watering of land has proved beyond a doubt its wonderful efficiency in certain parts of this arid section, in California, in Colorado, and elsewhere, so that it is but a question of capital and enterprise before the whole large problem will be solved. Every year sees an advance toward this desirable end; congress has some phase of the matter constantly before it; the United States Geological Survey has rendered valuable assistance in determining the flow of the rivers, which must be used for water supply, surveying and estimating the cost of dams and reservoirs, and pointing out past mistakes and errors which may be avoided.

Close the mind's eye a moment and picture the accomplished result. Fifty million people added to the pop-

ulation east of the Missouri river, for this is the number of inhabitants the present waste lands are capable of supporting, a great nation in itself; an agricultural community, changing desolation into fruitful lands, creating a constantly increasing demand on eastern manufacturers, and taxing to the utmost the carrying capacity of the great transcontinental railroad lines. It means a new and bright era of development for the country.

PERSONAL MATTERS

The old home of Francis Parkman, the historian, near the pond of Jamaica Plain, is now included in the park system of Boston. The spot is to be marked by a memorial.

C. Barber, president of the Diamond Match Co., gives much of his fortune to the town of Barber, Conn., which he founded in 1891. He is now about to spend \$100,000 on its public park.

Governor Orman of Colorado is one of the best shots in that state and has a collection of trophies won on hunting trips into the Rockies which can be equaled by but few in this country.

The house in which Michael Angelo died in Rome has come under the hammer of the iconoclast and is to be torn down in order that plans for the widening of the Corso may be carried out.

Princess Frederick-August of Saxony, daughter of the grand duke and duchess of Tuscany, who some day will be queen of Saxony, is taking a regular course as a trained nurse in the Lutheran hospital at Dresden.

Congressman Curtis of Kansas is one of the most ardent admirers of that state. "I don't see," he recently remarked, "why anyone wants to dispute as to the whereabouts of the garden of Eden. It is situated in the heart of the Kansas corn belt."

Alexander Graham Bell of telephone fame, thinks that M. Santos-Dumont has demonstrated the possibility of aerial navigation, but holds that the balloon part is not essential. "The Brazilian," says Mr. Bell, "has shown that aerial navigation is chiefly a question of mechanics and power in the motor."

When Governor Odell of New York was running for a local office some years ago he was canvassing in a small town, and endeavored to enlist the aid of a barber. He failed to do so, and as he got out of the chair he remarked: "Well, if you won't vote for me, you have at least improved my appearance." The democrat replied: "It don't take much to do that, does it?"

Shortly after arrival of Kruger in Holland his admirers were anxious to have his portrait painted, but he refused on the ground that he had no time. Finally, however, Miss Theresa Schwarze succeeded in persuading him to sit. He chose the morning hours from 7 to 9, and she painted him reading a bible, which she brought to the sitting room for that purpose. He was pleased with her suggestion and afterward accepted the bible as a present.

A Siberian Gold Mine. In the Achinsk district of Siberia, lying to the west of the Yenesei river and about one hundred miles to the south of the Trans-Siberian railroad, I went with a party of four other Americans to visit the mines of a large Siberian proprietor.

The wall rock of the vein appeared to be full of little crystals of iron sulphide, and on closer inspection articles of gold were visible. The finding of free gold in the rock, away from the quartz of the vein was rather extraordinary, and in some measure prepared us for the appearance of the quartz in the face of the drift. Here, by candle light, on the face of quartz eight feet in width, appeared wire-like strings and masses of native gold, extending in lines more or less parallel to the walls from top to bottom of the drift, which was about six feet high. In no less than six openings on this vein, all following it from fifty to two hundred feet into the mountain side, we were shown these marvelous exhibitions of free gold. Blasts of powder were put in wherever we directed. Specimens were taken from the fresh face, beaten up in mortars and panned. In every case gold was found, often at the rate of hundreds of dollars to the ton, and a subsequent examination of the vein along a course of seven hundred feet showed the free gold already found in the tunnels. By an exhibition of his government record books, kept by order of the mining department to accompany the consignments of gold turned in to the agents of the St. Petersburg mint, the owner proved to us that he had in four months' time taken over \$50,000 from this vein, crushing only eighteen tons of ore a day. That the deposit described above is not an exceptional character in Siberia could be proven by the citation of numerous examples.—C. W. Furlington, in The Engineering Magazine for September.

DOWN ON TRUSTS.

"Yes, you bet, I'm down on trusts," replied the old farmer as he lugged out a gold watch to note the time. "and if I go to the legislature I shall do all I can agin 'em. There's a heap of difference between a trust and a family syndicate."

"How do you mean?" was asked. "Well, I own the only lake in my county which has got any fish in it. My son, Jim, owns all the boats on the lake. My son, Bill, owns all the land around where fishworms can be dug. It used to be free fishing for all, but three years ago I fenced in the lake and organized a family syndicate, and since then we've got about \$5 for every fish caught. We ain't compelling anybody to come to our lake and hire our boats and buy our worms, but when they do come

we make it pleasant for 'em and furnish sandwiches at 15 cents apiece and milk at 10 cents a glass."

My heart and hand another claimed. His plea had come too late. It's ever thus with people without pluck and vim. Take Rocky Mountain Tea, don't get left again. Smith's pharmacy.

CABS RUN DAY AND NIGHT AT BUFFALO

Cabs run day and night at Buffalo; not the same cabs, but cabs. And the cab is the tippler's friend, says Rolling Lynde Hart in the September Atlantic. The great barns keep their vehicles moving till midnight; the purely nocturnal gigs and coaches go privateering. I inquired how the horse fared under so Parisian a reversal of night and day. "E do fare well," said the cabby. "E canna be bit nights by flies, an' E canna be 'urt nights by 'cot." But at this point I sighted a familiar face. Mr. Richard Danforth, operating superintendent of the trolley lines, rode by in his "hurryup" cart, going home from an electrical complication. He very kindly picked me up, and told me things. The night crews, it seems, mount the cars at ten and work till six, getting ten hours' pay for eight hours' labor, though without "relief." They eat their supper at two in the morning. These must be trusty souls, the best twentieth of the whole army of trolley-men; for the cars run at high speed, and many of the passengers are also very "fast,"—so fast indeed, that they sometimes give trouble, and life disorder is only to be cured by the laying on of hands. The management instructs conductors to fight only when necessary, but never to be beaten. "Punch brothers, but punch with care." Yet on the whole, the world is so constituted that the conductors establish rather an intimate entente with the "rounders." The rounder calls the conductor by his Christian name; the conductor puts the rounder down at his accustomed stopping place, no matter how hilariously unaccountable that particular rounder may have become. This is possible, because the rounder always comes home on the same car; there is nothing so uniform as the regularity of the irregular. Moreover, there is work to be done all night at the car barns,—cars to be groomed, endless details and particularities to be inspected. There would also be work for the power house, did not Niagara furnish the power.

NEWS AND GOSSIP OF BADGER STATE

Albert Norman of Green Bay is wanted for attempting to pass a forged order for \$100.

The Stevens Point fair opened today. One of the features is a fine racing program.

La Crosse lumbermen are suffering from the work of "log pirates." Stealing logs used to be a profitable and popular industry in this state some years ago.

At a picnic held at Rockville, last Sunday, Herman Kitzrow, a Manitowish butcher killed, dressed and ready for market a steer in seven minutes and five seconds.

The ladies of the choir of the First Baptist church of Fond du Lac have inaugurated the plan of singing without hats. The idea has been favorably received by the leading people of Fond du Lac and is a good one.

In a La Crosse jail "snake" caused a man who had been arrested for drunkenness and in attempting to climb out of their reach he fell to the floor on his head, receiving a serious wound and rendering himself unconscious.

A Chippewa Falls fireman was frightened out of a watch tower by a ghost that looked like Carrie Nation. It was probably a case of guilty conscience. The man had no doubt been drinking and fancied Carrie was after him with her hatchet.

West Superior is determined to be good. All its gambling houses have just been ordered closed. The authorities "allowed" that they could tolerate games of chance, but that they were opposed to the "sure thing" methods that had become the vogue there.

Investigation would indicate that Arthur C. Mills of Madison, who committed suicide by inhaling gas at a La Crosse hotel, had become dependent because of an incurable disease with which he was afflicted. He is said to be the third member of his family to take his own life.

The quarterly conference of the Methodist Episcopal church will be held in Ripon next month or early in October. It is said that there may be a debate over the question of returning to the old plan of three-year pastorates, which was dropped at the general conference in Chicago in 1900.

Racine people are disappointed and angry because the Improved Order of Redmen, who have been in convention in that city, did not give a "ghost dance" as they promised. Evidently the new generation of redmen is no improvement over the old in the matter of keeping faith. Constance Deasch of Green Bay has a small garden to the rear of his house to which he gives much time and attention. In order to protect its contents from various insects, he made liberal use of paris green. He evidently carried the matter too far, for his wife was taken ill after eating of the vegetables taken from the garden and after twenty-four hours of suffering passed away with what the doctors called paris green poisoning. The husband also was very ill, but will recover.

PHILIPPINES OPEN A VAST PROSPECT

For a Man of Brains and Industry
There is a Fortune in Nearly
Every Line of Business.

San Francisco, Cal., Sept. 2.—Congressman Hull of Iowa, chairman of the house committee on military affairs, who has arrived here from a five months' tour of China, Japan, and the Philippines, is deeply impressed with the possibilities of the new American possessions in the Orient. He says:

"For a man of brains and industry the Philippines open a vast prospect in nearly every line of business. The mineral, agricultural and timber resources of these islands constitute a field for commercial enterprise that is practically unlimited. Of course, the present conditions of brigandage make it exceedingly unsafe for people to settle in the islands away from the protection of the military posts. But a majority of the people desire peace and safety, and are doing all they can to help the troops. "It is impossible to make an Anglo-Saxon out of an Oriental, therefore, the Filipino will probably never be an American citizen in the broad sense. But as soon as he gets a sufficient education and becomes a little more impregnated with our ideas, the Filipino will be more worthy of participating in the fullest extent in all the benefits of this government."

"Of course we will have to govern them with firmness as well as with kindness. I think that forty thousand troops is about the right number to keep there for some years to come."

NOTES FOR WOMEN.

At the hair dresser's it is noticed that the pompadour is not so pronounced as it was, although it still retains its popularity, and promises to remain with us throughout the coming winter. The new styles of pompadour are much prettier than formerly, and are so varied as to become every one.

The hair is loosely waved and brought back from the face and dressed either high or low, as is most becoming to the wearer. With the comb it is caught and pulled a little forward on the right, giving the effect of a part to the left side. Unless the hair is very thin an artificial roll is not necessary. The parting to the left gives spirit and a little dash even to a demure face.

The "rat" that has so long been used has given way to a fringe of wavy hair designed to be worn in the front, combed in with the wearer's hair and rolled back to form a pompadour. The false pompadour, may, with clusters of small curls adjusted separately, be worn on the outside, the hair on the head underneath being brushed smoothly back and securely fastened.

The most comfortable style and one of the prettiest is to part the pompadour on the left side and allow it to droop almost to the brow or part in the middle and catch up loosely from the sides to the top of the head, dressing the back hair high and rather flat. A ribbon bow completes the coiffure.

A newer style which one of the most fashionable hair dressers is showing on a model somewhat early will probably not be adopted to any great extent until women return from the seashore, where it is being worn by the fashionable set. The hair is prettily pompadoured in front. The balance of the hair is drawn to the top of the head, plaited and pinned straight down the back below the nape of the neck and the ends turned under. A velvet bow adorns the coiffure about two inches from the end.

Tailor- Made Suits.

Women's tailor-made suits at figures that are drawing in customers. We are making lower prices on good suits than any other house in Janesville. Another thing, and an important one, we have more suits to offer. Comparing new fall styles with late spring suits the difference is not great, and women can buy our suits at figures in many instances less than half price and be the possessors of a good substantial stylish costume. This suit matter is certainly worth locking into.

MURPHY'S FLATS.

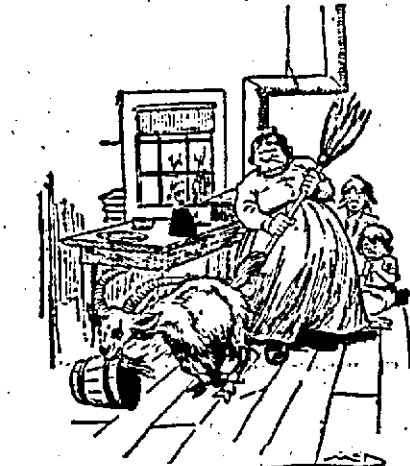

THE GERMAN GROCER GETS FURTHER NEWS OF THE TENANTS.

The Janitor of the Building Tells Him About Lady O'Sullivan's Poker Party and What Happened When the Betting Got High.

[Copyright, 1901, by C. B. Lewis.]

"Well, Mr. Sprocket, I don't know but you vinas dead," said the German grocer as the janitor of McMurphy's flats limped into the store the other day.

"No; I still live," was the reply, "but I'm not giving the tenants to understand that I'm in robust health. This limp is supposed to be for rheumatism in the legs, and on top of that I have my regular asthma and heart disease."

"SHE RUN THE GOAT OUT OF THE HOUSE." When a janitor has got his tenants so that they are afraid to ask him to sweep the halls for fear he will fall dead, he's got a pretty good thing.

"Und dose families—do dey quarrel some more, or vinas all peace and happiness?"

"It's sad times over at the flats, Mr. Wasserman, sad times, and there are hours at a time when my heart aches over the wickedness of human nature. The last time I talked with you each of the three women was trying to do the other in style, but the barber's wife had carried off the palm. There was a week in which Mrs. O'Sullivan of the first floor and the Countess Divito of the second were crushed to earth. Mrs. O'Sullivan was the first to rally. One morning she twisted up her hair in a knot, spanked three or four of the children and run the goat out of the house, and, going up stairs to the colored woman, she knocked on her door and said: 'Lady Torrington, a lady as is a lady knows another lady as is a lady as soon as she sets her eyes on her.' 'You bet yer she do!' said Mrs. Torrington.

"Then I am a lady, you are a lady, and the countess is a lady, and phwat's the use of any hard feelings? I'm going to give a little recherche affair this evening, and I've come up to extend a high down invitation."

"Vinas it a party?" asked the grocer as he absently toyed with a string bean.

"Yes, of course. The word 'recherche' knocks you out, but as a janitor I make use of it a hundred times a day. It means the same as four XXXX's on a can of sardines—something very exclusive, you know. The barber's wife knew all about it, and she wasn't over a minute accepting the invitation. She'd got tired of quarreling and was ready to make up. Then Mrs. O'Sullivan extended the invitation to the countess.

I stood by as she did it, and I tell you, Mr. Wasserman, it made me proud of the McMurphy flats. She knocked on the door, and as it was opened she made a grand courtesy and said:

"The Lady O'Sullivan's compliments to the Countess of Divito, and will the Countess of Divito condescend to honor the Lady O'Sullivan with her royal presence this evening at the hour of 8?"

"The countess had probably expected to be hit with a washboard," continued the janitor, "and she was too surprised for the moment to speak, but when she got at it she responded according to court etiquette. I knew Mrs. O'Sullivan had some little game on hand, but just what it was I couldn't figure out. However, when she asked me what sort of refreshments went with a recherche affair I recommended bottled beer, sliced onions and sardines and bided my time to unravel the mystery."

"Und dot party comes off?" queried the grocer.

"It does. Yes, at 8 o'clock this evening Lady Torrington and the Countess Divito descended to the first floor and were received with all due honors by Lady O'Sullivan. You know what a prelude is, don't you?"

"Yes. It vinas somethings dot takes place afterwards."

"You are wrong, Mr. Wasserman. It is something that takes place before anything else happens. In this case the prelude was a glass of beer all around and a song by Lady O'Sullivan, and then the honored guests were invited to sit down to a little game of poker. As soon as I heard of it the mystery was explained. Tim O'Sullivan had been coaching his wife at poker for a week."

"By golly, and some gambling goes on!" exclaimed the grocer in considerable excitement.

"Some gambling goes on," sighed the janitor. "If the guests were surprised, they didn't show it, but sat down and were soon at it, and for half an hour all went well. Then Lady O'Sullivan gets three."

"Three pokers?"

"No; three kings. Yes, she gets three kings, but Lady Torrington gets a straight, you see."

"Who vinas a straight?"

"Don't you know about poker, Mr. Wasserman?"

"Neffar. I shant keep a grocery and haf all kinds of vegetables in season."

"Well, a straight beats three, but in this case the countess had a flush, and

that beats a straight. It was the best hand of the three, but no one knew it."

"Und dose womeans makes some bets, eh?"

"They do. Lady O'Sullivan carelessly remarks that her hand is worth a nickel, and she is followed and raised by the other two. By and by there was \$10 on the board."

"You don't say?"

"Then \$10, \$15, \$25."

"By golly, but how awful!"

"Do you know what 'call' means, Mr. Wasserman?"

"I do. One time a man calls me a liar, and I hit him on der nose."

"But a poker call is different. Lady O'Sullivan finally called and showed her hand, and it was when she discovered that the countess had a flush that the fun began. All grabbed for the money, and in less than a minute there was a row on hand. It took me and two policemen to separate those women, and they had scratched and bit and pulled hair till each was a sight to see. The countess had fainted away when we carried her up to her flat."

"Und don't somebody go by der police station?" asked the grocer.

"No."

"Und don't some judgments of heaven fall on nobody?"

"Not at all. We simply pulled them apart and left them to fight it out some other day. They are certain to have another try at it."

"But it vinas awful."

"But what are you going to do about it?"

"I can't do nothings maybe, but it makes me grieve in my heart. Mr. Sprocket, you take two ears of green corn and three tomatoes and go home and say to dose womeans dot it was all wanty and wickedness und dot if sooch peoples can go to heaven when dey dies den I like to stay down here mit my wife und keep a grocery mit canned salmon shust ash good ash new for 22 cents a can."

BIG RISE IN THE REVENUES.

Government Receipts for August Reached Total of \$45,394,125.

Washington, Sept. 2.—The comparative statement of the government receipts and expenditures during the month of August shows the total receipts from all sources to have been \$45,394,125 and the expenditures \$39,451,497, leaving a surplus for the month of \$6,042,628, as against a deficit for the month of August, 1900, of \$811,443. The receipts from customs during the present month amounted to \$21,462,171, an increase over the corresponding month of last year of nearly \$100,000. The receipts from internal revenue were \$22,036,784, which is a falling off of about \$4,000,000 as compared with August, 1900. From miscellaneous sources there were received \$1,895,169, as against \$2,249,525. The expenditures on account of war department this month amounted to \$9,320,615, a decrease of nearly \$5,000,000; on account of the navy, \$5,504,931, a falling off of about \$400,000. The pensions for the month reached \$13,835,955, an increase of about \$60,000 over the corresponding month last year. The interest payments aggregated \$2,463,026, as against \$3,170,081 for August, 1900.

Van Cleave Is Set Free.

Springfield, Ill., Sept. 2.—The case of the people of the state of Illinois on relation of H. H. Klayser against former Insurance Commissioner James R. B. Van Cleave, who is charged with larceny, was dismissed on motion of the defendant's attorneys this afternoon. The motion was made on the ground that Justice Connolly, before whom the warrant was sworn out, failed to sign the jurat. Klayser, the complaining witness, alleged that Van Cleave took certain papers and photographs from the state insurance office at the expiration of his term which were the property of the state. The papers referred to were statements of the Aetna Insurance Company, against which corporation Klayser has been waging war.

THE YOUNG MAN.

One of the problems that interests young men, as well as those older, is the changes that are taking place year by year in the life of the young man.

Fifty years ago conditions were such that very little thought was ever given to the subject of a life work. The development and intricacy of modern business has changed the conditions entirely so that now it is as necessary for a young man to plan for his future work if he would succeed, as for his education.

For many years the city boy was considered to have a better chance to secure wealth, travel and education than the country boy; now the intense competition found in the larger cities has changed all of that, so that the country boy seems to be the equal, if not the superior, of his education than his father.

City life enervates a boy and saps his stamina and vitality to such an extent that when business cares and worries come to him, he rapidly grows old; and at fifty, when he should begin real enjoyment in life, he breaks down in health and spends time and money recuperating wasted health and energy.

The farm offers to the young man more than ever in our history. The farm boy has more opportunities for securing a competence, travel and education than his father.

Land costs more now than ever before, but the rapid strides made in late years by the science of agriculture makes it possible for an educated farmer to raise more produce to the acre than was possible twenty years ago.

Formerly the farmer was compelled to do a considerable amount of manual labor; he cut his grain and grass with a scythe, bound it by hand, and threshed it with a flail. All of the modern improvements make the actual labor on a farm more enjoyable and consequently makes that free and independent life more attractive.

Education has lifted the calling of a farm from the lowly and despised to the dignity of a profession requiring a high order of ability and education to successfully prosecute.

Farm managers receive large salaries, while stock raisers and dairy farmers make more money than he could with the same capital invested in a stock of goods.

The life in the country is being more and more appreciated and the income is sure. The young educated farmer is the coming man. Irrigation and forestry are bound to reclaim what is now arid land, for the use of the farmer and the broad prairies of this country will continue to invite our best young men to a calling more desirable and remunerative than pushing pens and pencils by the glare of a gas jet.

STRIKES IN GERMANY.

The German government has printed a resume of the record of its strikes, and the report shows that the strike is an epidemic quite as prevalent in Europe as here.

We have known considerable about the monster strikes of England, but the German character has seemed to be too phlegmatic to be much exercised by sympathy or seeming injustice.

Over 1,500 strikes occurred there last year, and so many concerns were permanently closed by these strikes that 150,000 people were thrown out of employment.

Thus far in 1901, 243 strikes have been begun and 203 have been settled in which the strikers have been successful forty-four times and unsuccessful the remainder.

The above figures will probably average about the same as our own steel strikes, and the thoughtful man can figure out before he strikes about what his chances are for getting what he wants.

It is about a chance of three to one that he loses, and to such chance must be added the loss of wages and suffering from injuries and possibly death as the result of riots; so we can figure on the gamblers' odds against every man who strikes.

This does not take into consideration the justice of his demands. That cuts no figure in averages and cannot be determined because there is such a difference of opinion that

no decision can be reached satisfactory to all.

Reflection on some of these figures may tend to cool the ardour of hot headed leaders to such an extent as to allow reason to play a part in important decisions.

SHAW WILL NOT SAY "NO."

Iowa's Governor Says It Is Too Early to Talk of the Presidency.

Omaha, Neb., Sept. 2.—Governor Shaw of Iowa passed through this city and was shown the Dilliver interview in which his name was mentioned as Iowa's candidate for the presidency in 1904. The governor was evidently surprised by the language of the interview and was reluctant to talk on the subject. When asked as to whether he was a prospective candidate for the nomination he declined to say yes or no. Pressed for a direct answer, he said: "You may say this: I have not inspired any mention of my name in connection with 1904. Senator Dilliver is correct in the statements that it is too early to determine. The first thing for Iowa to do is to roll up for our own ticket the biggest majority ever polled in the state, and this we will now do." The governor further stated that his present plans contemplate resuming a business life on retiring from the governor's office next January. "I like business better than politics," he said, "and the two will not mix. I shall be slow to break away from my previous intention of keeping out of politics. It is too early to decide and too early to talk about it. The one thing to be considered now is the campaign upon which we are entering."

STARTS ON A LONG SWIM.

Plans to Reach New York From Boston in Thirty Days.

Boston, Mass., Sept. 2.—Peter S. McNally, the long distance swimmer, started at 2:10 this afternoon on his attempt to swim to New York in thirty days. Despite a heavy down-pour of rain 2,000 people gathered on the Charlestown bridge and witnessed the start. The tide was on the ebb and the water very rough and tonight the waves in the harbor run high. McNally was accompanied by a tug upon which were his attendants. He was reported to Governor Shaw at 7 tonight, making slow progress, having covered only about five miles. He will keep close to the shore until the conditions improve and then cut across the bay and around Cape Cod. He plans to cover ten miles a day, resting at night on the tug.

Expert Swimmer Drowned.

New York, Sept. 2.—George Belcher of Brooklyn, well-known as an expert and fancy swimmer, was drowned at Broad channel, Rockaway beach today. He was giving an exhibition in deep water of how a swimmer could carry a person on his back and his daughter Eva, 18 years old, was the one he carried.

THE KENTUCKY DERBY

Lexington, Ky., September 2.—The card announced by the Kentucky Trotting Horse Breeders' association for the October meeting is the best ever put forward by that historic organization. The twenty-ninth annual meeting promises to be the most brilliant ever held over any trotting track in America.

Ten days' racing will distribute \$115,000 in stakes and purses. Thirty races are on the card, and such events as the match between Boralma and The Abbott for \$20,000 and between Charley Herr and Crescens for \$7,500 stand out prominently.

Then there are other stake events which are the best of their class in the trotting world, the Transylvania, the Tennessee, the \$16,000 Futurity, the \$10,000 Louisville prize for three year olds, and numerous other stake events, to say nothing of the high class trotting and pacing events for \$1,000 purses which have been arranged by Secretary Horace W. Wilson.

AMUSEMENT NOTES.

Wood & Ward's farce comedy "Two Merry Tramps," will hold forth at the Myers Grand Opera House. This is one of the best farce comedy pieces on the road and is given by a company of artists that keep their respective audiences convulsed with laughter from start to finish. Any one suffering from an attack of the blues can get the best treatment in the world for them by attending "Two Merry Tramps" this evening.

Quite a number of the stores and business houses, as well as the banks, courts and postoffices are closed today on account of it being a legal holiday. S. W. Merrick, of the firm of Merrick & Hutson, is home from a business trip to Lodi and Madison where he has been interested in capitalists in Mexican Plantation lands.

FLOWERY KINGDOM'S COURT.

Mikado Rarely Passes Beyond Limits of Imperial Gardens.

The western world hears very little of the distant and somewhat secret court of the mikado. Yet it is interesting in more than one respect, for the poetical charm of its traditions is giving place gradually before the advent of the spirit of the times. The Mikado Mutsuhito is regarded as one of the cleverest and at the same time most modest rulers recorded in Japanese history. When he overthrew the "Shogun" in 1868 and restored his own dynasty he won at once the admiration and sympathy of his people by abolishing a despotic form of government in favor of a milder form. In his own country he is known as "Kotell," but he is generally referred to abroad as the "mikado," or "the honorable gate."

The mikado is of comparatively large stature, and his very majestic bearing is increased by the general's uniform which he usually wears. In his daily walks he never passes beyond the limits of the imperial gardens, except on the occasion of the opening of parliament and at rare intervals for the purpose of attending military and civic festivals. Unlike his predecessors the mikado is very frequently to be seen driving in his carriage, and when he passes through the streets the Japanese are no longer compelled, as was the case in former days, either to disappear from the line of route or to turn their backs toward their ruler. It is curious to learn that this attitude betokened a form of the highest respect. Nowadays the people learn that the mikado is approaching only from the shouts of the police: "The mikado; beware!"

CHANGING A ROSE'S COLOR.

Chemist's Scientific Knowledge Brings Climax to His Love Affair.

It was a lover who lately discovered this trick. When he was not with his lady love he was studying chemistry and experimenting, and one day recently he found an easy method of changing the natural color of flowers. He was in the habit of presenting his sweetheart with bouquets of beautiful roses which grew in his garden, and a few hours after he made the discovery he took her half a dozen of the choicest white roses and told her that she could learn through them whether he was really in love with her or not. "If you and I are destined for each other," he said, "these white roses will become crimson within five or six hours from now. Gradually but surely they will change color, and you regard the change not only as indication that the flowers are delighted to be worn by you, but also as an infallible sign that happiness is assured to us in the future." Sure enough before the eyes of the wondering maiden the roses changed color and were crimson at sunset that evening. Marvelous indeed the change seemed to her, for how could she know that the roses were originally red and that her lover had simply bleached them white by holding them for some time over a pan filled with smoking sulphur before he handed them to her?

BEST LABOR DAY PARADE SEEN IN JANESVILLE FOR MANY YEARS

About 500 Men in Line, Headed by Two Bands—
Line of March Crowded with Spectators—Appropriate Exercises Up the River This P. M.

The labor unions of the city certainly have no cause to find fault with the weather man. The day set apart for their annual celebration was as near perfect as could be.

The unions on their part showed their appreciation of the fact by turning out in full force to celebrate the day in a fitting manner.

Early this morning men with badges of their order began to appear on the streets and made their way toward headquarters to get everything in readiness for the procession which eclipsed anything ever held in this city before.

The procession formed on Academy street and awaited the arrival of the Porter band which was to head the first division of the parade. The band arrived from Evansville on the 10:10 and took its place at the head of the procession.

Line of March.

The parade formed at the corner of Academy and West Milwaukee streets at 9:30 a. m., and at 10 a. m. started. The line of march was east on Milwaukee street to Bluff street, south on Bluff to Court, west on Court to South Main, thence north to the boat landing.

Order of Parade.

FIRST DIVISION.

City Police,
Fire Department,
Porter Band,
Federal Union,
Harness Makers,
Cigar Makers,
Tailors Union,
Typographical Union,
Barbers Union,
Brewers Union,
SECOND DIVISION.

Imperial Band,
Masons,
Carpenters,
Plumbers,
Painters,
Friends of Organized Labor,
Hogan and Brown Led

George Hubbard, marshal of the day, with Chief Hogan and Officer John Brown, led the line. The Porter band, eighteen strong, came next.

Then followed an open carriage with the speakers: Rev. W. A. Goebel, J. L. Mahoney, William Mason and George H. LaFayette of Chicago. These gentlemen are all entertaining speakers and covered the many points of interest to the assemblage during their talks and were given hearty applause at their close.

This evening the festivities of the day will close with a dance. Smith's full orchestra will furnish the music and a good time will be had by all in attendance.

A feature of the parade was the rub act by Patrick and Frisco. The performers certainly were good and gave an exhibition that pleased the people that lined the streets on the line of march.

RECENT WORD FROM
GEN. G. M. RANDALL

He is Now Stationed at Fort St. Michaels, Alaska, and is in the Best of Health.

Charles M. Randall is in receipt of a letter from his brother, General Geo. M. Randall, who is now stationed at Fort Michaels, Alaska. The letter was mailed on August 12 and has just reached here. Mr. Randall has not heard from his brother since the thirtieth of last October.

General Randall states that he is in the best of health and getting along nicely. His command will be moved to Fort Van Couver at Portland, Ore., on September 30th. Only a sufficient force to maintain order in the country will be left at Fort St. Michaels. General Randall is commander of the department of Columbia which includes Alaska.

He has been in Alaska, three winters and acting under his suggestions the war department has ordered all of the troops except a few back to Fort Van Couver and has also ordered him to clean up the country and send back to the States all those who are unprovided for the terrible winters.

Mrs. Randall spent the summer with the General, returning home on the Transport Seward about August first. She has suffered with rheumatism for several years and now has it so severely that it is liable to leave her a cripple. Mrs. Randall is now at her home at Fort Logan, Colorado.

CLAIMED BY DEATH.

Mrs. Frank Pendergast Dead

Word has been received by relatives in this city announcing the death of Mrs. Frank Pendergast at her home in Elgin, Ill., Sunday morning.

Mrs. Pendergast will be remembered as Miss Gertrude Slawson, formerly of this city. No particulars concerning her death are given other than she died on Sunday morning and that the funeral will be held tomorrow morning.

Mrs. Abbott Dead.

Mrs. Abbott of Baraboo, mother of Miss Elizabeth Abbott, who is well known in this city, died last night at her home in Baraboo, from the effects of a stroke of paralysis which she suffered on Wednesday last.

Miss Abbott has been a teacher at the Wisconsin State School for the Blind for many years. She has the sympathy of a large circle of friends on account of her great loss.

The Woman's Foreign missionary society of Court street M. E. church will meet on Wednesday afternoon at three o'clock at the home of Mrs. E. W. Lowell, 152 Ravine street. At that time the annual opening of the mite boxes will take place. Let every lady bring a well filled box.

At the Nightingale 5 and 10-cent store opening on Saturday the crush was so great that a force of fourteen clerks was required to wait on the trade. The articles offered are many and occupied tables and shelving that run the entire length of the spacious store. All this week bargain prices will prevail. Mr. Nightingale, the proprietor, was a former resident of Janesville and is the possessor of a large acquaintance throughout Rock county.

A good-sized delegation will leave Janesville tomorrow for the Evansville Rock county fair.

SHOOTING SEASON OPENS FULL BLAST

EVERY BUNCH OF RUSHES HAS
A HUNTER BEHIND IT.

Local Sports Thick on and About Koshkonong Yesterday—Wood and Teal Ducks Were Quite Plenty, and Some Good Bags Were Secured—Prairies Also Scoured.

Yesterday every bunch of rushes and bed of rice at Lake Koshkonong held a hunter looking for ducks. The ducks were not plentiful but the crowd of shooters kept what there was on the move which resulted in the most of the hunters getting a chance to kill a duck or two.

The large majority of the ducks killed were wood ducks, although quite a number of teal were skipping around. From daylight until about ten o'clock the familiar spat, spat of the nitro powder could be heard, coupled with the occasional boom of a "soft coal burner." Enough shots were fired during that time to have killed ducks enough to feed a regiment but it is safe to say that the average would be about one duck to ten shots.

The prairies also came in for their share of the hunting and parties with their dogs and guns left the city at an early hour yesterday morning going in all directions to where they might be able to find a covey of chickens. Every field in a radius of ten miles of the city that looked at all likely, or was posted with a sign, "No Shooting," was given a thorough going over.

A few parties, with well broken dogs succeeded in getting some chickens but the majority came back without a feather.

A law that some of the hunters may not be familiar with was passed at the last session of the legislature, and is in regard to hunting on farm lands. The law is as follows:

It is unlawful to enter any growing or standing grain of another with arms or permit a dog to enter such grain or to hunt or shoot within an enclosure used as a pasture for stock without permission of the owner.

It is unlawful to hunt on the land of another after notice so not to do. Notice may be given by land owner by sign boards at least a foot square posted on every forty acres of land in at least two conspicuous places.

Quite a penalty is attached to the violation of this law and the hunters will do well to observe it.

From present indications the hunting season will afford unusually good sport in the northern part of the state, as there is an abundance of game. The winter was comparatively mild and there has been plenty of moisture and a luxuriant growth of berries and other wild plant products which are necessary to feed feathered game.

Prairie chickens and grouse seem to have been coming in thick and fast in greater numbers since the heavy timber has been cut out, and they will greatly reinforce the game birds, while partridges seem as numerous in many localities as in the pioneer days.

CANNING FACTORY
READY TO RESUME

Trial of the New Machinery This Afternoon is Found To Be Satisfactory in Every Way.

A trial of the machinery in the canning department of the P. Hohenadel, Jr. Company plant was made this afternoon and it was found to be all right with the exception of a few minor details which can soon be remedied.

It seemed like talking nonsense a week ago when the plant was demolished and a mass of wreckage to say that it would be rebuilt and in running order inside of ten days. The people who made those statements knew what they were talking about and today the rebuilding of the department is nearly completed. About fifty loads of corn were received at the factory this morning and before tomorrow morning they will have enough on hand to start up with a full force.

Mr. Hohenadel has worked night shape and has been ably seconded and day to get the plant back in by the Chicago and Northwestern railway officials.

The engine room which was a mass of wreckage has been cleaned up and put in first-class shape. All the broken pipes and castings have been replaced so that everything is ready for business.

During the last week the company has leased about six hundred acres of land which they will take possession of next year and plant to produce. The plant is here to stay and will yet be one of our city's grandest industries.

May Wear Many Uniforms.

King Edward must have the right to wear more uniforms than any other crowned head. In addition to the field marshal's uniforms of the British army, he will wear the four different uniforms of the Guards and the Tenth Hussars. He is an English admiral and also a general in the Prussian army and colonel of German Dragoons and of a Prussian regiment. The King is colonel of no fewer than twenty-two different regiments in his own army.

A good-sized delegation will leave Janesville tomorrow for the Evansville Rock county fair.

YOUNG WOMAN
ACTS AS BURGLAR

Suspected of Going Through a Boarding House Run by Mrs. Jackson on Pleasant Street.

Last Friday a young woman, who claimed to be a stranger in the city, and looking for work, stopped at a boarding house conducted by Mrs. Jackson on Pleasant street. She stayed around long enough to get acquainted with the boarding house, its occupants and their habits and last night went through the room of one of the boarders and succeeded in getting away with his gold watch and \$5 and also secured about \$5 from his room mate.

The young man was not aware of his loss until this morning. He at once notified Chief Hogan and a search for the young woman was made around town, until it was found that a young woman answering her description had purchased a ticket for Chicago and left on the 4:30 train.

A description of the young woman was at once telegraphed to Chicago where it is expected that she will be picked up by the police.

McKinney Called to Deadwood.

H. D. McKinney left this morning for Deadwood, S. D., where he has been summoned to appear as a witness for the United States government against the bondsmen of some horse contractors.

When Mr. McKinney was in the employ of the government as inspector of horses furnished by contractors for army purposes, some parties at Deadwood took a contract to furnish a lot of horses at \$75 per head. They could not fill the contract at that price, and the government purchased the horses in open market. They cost considerably more than the contract price, and the government is now suing the contractors' bondsmen for the difference in price paid for the animals. Quite a sum is involved, as the contract was a large one.

TAMPER WITH THE MAIL BOXES

United States Having Trouble with the Rural Delivery in Parts of Rock County.

Postmaster O. F. Nowlan is receiving considerable complaint from people living on the line of the rural mail routes that their mail boxes are being broken open and the contents taken.

Hardly a day passes that some complaint is not made that a box has been tampered with during the night.

The postal authorities have taken the matter up and if they are caught they will find it is a serious matter for them to break open U. S. mail boxes.

The police have received a number of reports of late of depredations in the country about the city. Harnesses, farming tools, clothing, anything, that can be carried away have been missed by the farmers.

A sharp watch is now being kept throughout the territory where the thieves have been at work and some evidence is likely to be obtained that will lead to their arrest.

Careful
Prescription
Work.....

Have you ever thought what that means? It means more than being careful not to dispense the wrong medicine or chemical. It means, also, carefulness in buying the chemicals used and carefulness in preparing the liquid medicines used in compounding the prescription, in order that they may not be impure and valueless, and thus balk the efforts of the best physicians, by producing no effect.

We exercise the very acme of carefulness in all respects in our prescription department. Ask your physician about us. Try us with your next prescription.

LATE TELEGRAPHIC NEWS

SCORE PRESIDENT SHAFER.

Report Accuses Him of Deceiving Western Men.

THINK STRIKE MISMANAGED.

J. D. Hickey, Sent by District No. 4 to Report on Real Situation, Says the Strike is Lost—Mentions Morgan's Offer.

Milwaukee, Wis., Sept. 2.—Steel strikers in this city may return to work soon as a result of the report of the committee just back from investigating the situation in the east. Such action would probably be followed by the return of the Joliet workers and would justify the South Chicago men in their stand. The report accuses Shaffer of deceiving the western men as to the real situation, says 72 per cent of the steel mills are running, and that had the true condition in the case been known here the strike would never have been ordered. The Bay View lodge took no vote on the report, but another meeting will follow in a week. The report was made by J. D. Hickey and J. P. Cooper sent as a special committee to Pittsburgh. Mr. Hickey severely scored President Shaffer and the management of the strike. He said the management of the Amalgamated association must be taken from the hands of Shaffer at once. Shaffer had without authority caused to be printed and circulated copies of the constitution which left out three important clauses. He had mismanaged the strike in such a way that it is lost and the men should at once return to work and do what they could to save the Amalgamated association. He said the true condition of affairs in the east had been misrepresented by Shaffer and Tighe, and that if it was known the men at Joliet and Bay View would never have struck. He claims that at one time during the negotiations with J. P. Morgan the latter had agreed to concede four non-union mills this year to the Amalgamated association, and he pledged his word to sign for all the mills in the combine within two years. If the negotiations had been properly conducted the association would have been stronger than ever, and there would have been no strike.

WU'S WIFE SOON TO COME.

Chinese Envoy Learns That His Help-met Will Sail in October.

Washington, Sept. 2.—Wu Ting-fang, the Chinese minister, now in Narragansett Pier, has written friends here that he has received advice from Pekin that Mme. Wu will sail from Hong-Kong for San Francisco Oct. 25. Mr. Wu will go to San Francisco to meet his wife and while west will visit the great cities that have extended him their hospitalities. Some weeks ago, when the census bureau issued its figures on the population of New England states, some wag wrote a widely copied article stating that the women of New England were greatly alarmed over the figures officially promulgated. It detailed that there were at least five women for every man and that the women had concluded to form clubs to promote the idea of polygamy; otherwise they could never hope to get settled in life. The clipping caught Mr. Wu's eye and he was so profoundly impressed by the knowledge it contained that he sent it to his foreign office, with some comments on the strange situation. Afterward he related the circumstances at the Metropolitan club and was amazed at the laughter produced. It required the united efforts of several diplomats and able lawyers to make the envoy understand that the article was written satirically and the idea of American women advocating polygamy was preposterous.

GAMBLING LOSS IS DENIED.

Millionaire Gates Repudiates Story Coming from Aix-les-Bains.

London, Sept. 2.—John W. Gates of Chicago, who arrived in London Thursday from Aix Les Bains, was asked what truth there was in the story that he had discovered a bank cheating him out of \$150,000.

"I never heard of the story," said Mr. Gates.

"But it was in all the London papers," he was informed.

"I can't help that," said Mr. Gates. "What the London papers or the American papers print is not a concern of mine. I have \$500,000 to give to charity if any one can show five consecutive newspaper paragraphs mentioning my name that are correct. I think such a thing an impossibility."

"If you want an item of news, I have just received a cablegram that the steel strike is all settled," Mr. Gates continued. "The Chicago rolling mills were never involved, as the men did not go out, but I am now informed the whole strike is settled."

Mr. Gates will stay in London some weeks.

The story was that Mr. Gates while playing "open bank" at Aix Les Bains, had seen a fan lightly held in a fair hand, carelessly fall down on the table and push some coins over the white line.

Mr. Gates had seen, too, a croupier, possibly carried away by the general excitement of the moment, push across 2,000 francs (\$400) to a certain player, where he should have paid 200 francs (\$40), and it was by no means the first time that similar mistakes had occurred.

Early on the following morning Mr. Gates left Paris, but not before he had an interview with those responsible for the management of the cardrooms. These gentlemen, it is stated, asked Mr. Gates if anything in the nature of the play had not been to his satisfaction to leave his account with the Casino open. It was a trifle of some 80,000 francs (\$16,000). Mr. Gates' answer was short and to the point.

"I do not care a red cent for the money," he explained, "but I prefer to play with—well—with men who play the game." Then he filed a check for the amount debited against him.

Plan for Redmond's Tour.

London, Sept. 2.—John Redmond, the leader of the Irish nationalist party, will arrive in New York about the middle of October on an American tour in support of the Irish cause. Mr. Redmond's visit is heartily approved by his parliamentary colleagues and the directors of the United Irish League. The full programme of the tour is not yet settled. Mr. Redmond will be accompanied by Patrick Aloysius McHugh, a member of parliament now undergoing six months' imprisonment in connection with his article condemning jury packing, and by one other of his colleagues. They will address meetings in most of the big cities. Nov. 23 has been fixed as the date of the Chicago meeting. The deputation will return to Europe before Christmas.

Millionaire in Odd Plight.

Paris, Sept. 2.—Charles Vaughan, a millionaire, 26 years old, was noticed wandering in evening dress in the roughest quarter of Paris, occasionally seating himself on the edge of the pavement and holding his head in both hands, evidently struggling hard to kill his thoughts. Some policemen, observing his queer movements, questioned him and found that he had completely forgotten his name, address, whether he was wealthy or poor, married or single. Eight months ago Vaughan married Janice Merivale, a New York girl who is now visiting relatives in Washington.

Seeks Peace With France.

Constantinople, Sept. 2.—M. Baput, councillor of the French embassy, has received from the Porte a copy of a telegram sent the Ottoman embassy at Paris for communication to M. Delcasse, the French foreign minister. This telegram, while giving vague assurances, formulates nothing concrete. It requests a resumption of diplomatic relations between the two countries with a view to reaching satisfactory settlement of the matters in dispute.

Britain Gets Big Revenue.

London, Sept. 2.—The British customs collections for the fiscal year 1900-01 were £28,270,959. This is £23,227,487 more than for 1899-1900 and £2,650,859 more than the budget estimate. The inland revenues collected by the customs were £7,227,977, an increase over those of 1899-1900 of £942,018. The principal customs increases were tobacco £1,952,556, and tea, £1,635,569.

Latest Gift of Carnegie.

London, Sept. 2.—Andrew Carnegie has given £10,000 to build a town hall at Motherwell, Lanarkshire, Scotland. A number of other important gifts are expected from Mr. Carnegie in various parts of Scotland. Some adverse comment is being indulged in by the press on what is called the injudicious distribution of his munificence in the more numerous donations to towns in America.

BIG FLOODS IN CLEVELAND.

Immense Damage Done in the Ohio City.

PALATIAL HOMES IN WATER.

District Eight Miles Long and a Mile and a Half Wide Is Devastated—Citizens Rescued in Boats—Loss Estimated at \$1,000,000.

Cleveland, Sept. 2.—Angry floods swept over a district eight miles long and a mile and a half wide in the best part of this city yesterday afternoon and last night, doing immense damage to property. The deluge was due to unprecedented rainfall, accompanied by a cloud-burst. The precipitation was the greatest in the history of the city, amounting to 4.23 inches in fourteen hours. Last night, after a brief respite, rain began falling again, and further damage is feared. Costly residences in the fashionable quarter were speedily inundated, and the panic-stricken occupants were taken out in boats. Not only were the living driven from their homes, but the turbulent waters ravaged two cemeteries, tearing out the coffins and tossing them and their contents into the wreckage, which represents a property loss of \$1,000,000. Streets, bridges, railway lines, telegraph and telephone poles fell before the terrific onslaught. Beautiful parks have been devastated, churches and residences undermined, flooded and filled with debris of every conceivable sort. It seems marvelous that no lives were lost. Hundreds of residents who were imprisoned in their beautiful homes like stranded islanders, were almost panic-stricken, expecting to be called upon to wade out into the swirling waters at almost any minute. Danger signals were flashed about the city as speedily as the disabled telephone system would allow, and the work of rescue commenced. Row boats piled back and forth, assisting whole families from perilous positions, but these proved pitifully inadequate, and it was soon found necessary to go to the extraordinary precaution of calling on the life-saving crew from the river, a distance of seven miles. The lifeboats were quickly loaded on theatrical scenery wagons and hurried to the scene of destruction. The torrent surged with awful force for hours in Deering street from Fairmount to the boulevard, and over a dozen families were penned in like rats in a trap, with water five and six feet deep surrounding their homes. At this point the life-saving crew worked valiantly and, assisted by squads of firemen and policemen, finally succeeded in landing the terror-stricken people in places of safety. The fear was greatly enhanced by the momentary expectation that the great Shaker Heights dam would break loose and belch forth terrible destruction. Patriotic street, the sole means of transportation between the Polish settlement of 5,000 families and the remainder of the city, is half washed away, having caved into Morgan Run. It will take 5,000 loads of dirt to fill the hole in the street. Two cemeteries were torn up by the floods that swept through them. Coffins were disinterred and floated about on the muddy water with their silent occupants. Boys on rafts and boats towed them about without thinking what they were. The total loss is estimated at \$1,000,000.

Admiral Sampson Is Better.

Lake Sunapee, N. H., Sept. 2.—The report that Rear Admiral Sampson's condition was such as to cause alarm was exaggerated. The admiral and his wife came to Lake Sunapee on Aug. 22 and have since been stopping at Burkhaven. When he came here he was not in the best of health, but he has been gaining strength and is much improved.

It's Worse For a Woman

To suffer with skin disease than it is for a man, for a smooth skin and a clear complexion are essential elements of female beauty. When the taint of scrofula is in the blood it will be sure to show itself soon or late. Often its manifestations are as repulsive as they are painful. Many people have been cured of scrofula in its most malignant forms by the use of Dr. Pierce's Golden Medical Discovery. This remedy is remarkable for its power to purify the blood. It absolutely eliminates the corrupting elements. It makes the blood clean and rich. It increases the action of the blood-making glands, and so increases the quantity of pure blood supplied to the body.

"I will forever thank you for advising me to take Dr. Pierce's Golden Medical Discovery," writes Mrs. J. A. Murphy of Fond du Lac, Wis. "It has cured me of chronic scrofula of twelve years' standing. I had doctored for the trouble until I was completely discouraged. I also had chronic diarrhea for twelve years. I am in good health now—better than I ever was in my life, owing to Dr. Pierce's Golden Medical Discovery. I took several bottles of the 'Discovery' before I stopped."

No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indescribable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

"My wife used several bottles of S. S. S. as a blood purifier and to tone up a weak and emaciated system, with very marked effect by way of improvement. We regard it a great tonic and blood purifier."—J. F. DUFF, Princeton, Mo.

SSS is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates through all parts of the system.

S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice wanted. No charge for medical advice.

Went at 90 and is Dead.

New York, Sept. 2.—Paul Landstrom Brown, 90 years old, died at the home of his nephew in Bloomfield, N. J., of old age. Mr. Brown, who was reputed to be worth \$100,000, principally in real estate and stocks and bonds, was quietly married just a week before his death to Miss Augusta Andrus, a good looking woman 37 years old, who was a trained nurse and lived in New York city. Miss Andrus met Mr. Brown through an advertisement inserted in a New York newspaper asking for a housekeeper. She was selected from about fifty applicants and her manner and style of cooking so won the heart of the old man that he asked her to become his wife.

Mother and Child Killed.

Birmingham, Ala., Sept. 2.—Mrs. Fannie McGill, carrying a baby in her arms, was run down by a trolley car in Twentieth street and Fourth avenue and mother and child were mangled to death, being dragged half a block under the car. The accident was witnessed by many people. John Smith, the regular motorman, and Charles Courteen, a learner, were immediately arrested and placed in the county jail without bond. Smith is charged with murder and Courteen with manslaughter.

Steal Chinaman's Hoard.

Helena, Mont., Sept. 2.—Young Un, a Chinaman who has been employed for the past two years on a poultry farm near this city, drew \$800 from the bank preparatory to returning to China. He placed the money in a trunk which he took to the cabin of some friends. Late in the evening, while farewell festivities were in progress, eight masked men entered the cabin, abstracted the \$800 from the trunk and quietly departed. There is now clew to the robbers.

Apaches Are Troublesome.

Tucson, Ariz., Sept. 2.—Advices from Fort Thomas indicate restlessness among the Apaches. Over 200 Indians are gathered near Fort Thomas holding meetings and discussing grievances, and numbers of Indians are coming from the northern part of the reservation to join those at Fort Thomas. Settlers at San Carlos are feeling uneasy. This is sixty miles distant from the nearest post. There are only six privates and a sergeant at the fort.

Coroner Dies in Accident.

Racine, Wis., Sept. 2.—Christian Strippel, one of the most prominent German residents of this city and coroner of Racine county, met death by being thrown from his buggy and striking his head on the stone pavement.

BEAN FAMINE ON IN BOSTON.

Favorite Food of the Hub Is Scarce and Price Doubles.
Boston, Mass., Sept. 2.—Many Bostonians did not enjoy their customary repast of beans today, because the scarcity of this staple food amounted to almost a famine. About 400,000 bushels of beans are annually consumed in Boston, and not in twenty years has the price exceeded \$1.50 a bushel. Now, however, owing to a short crop in New York, Michigan, California and Canada last year, the supply is nearly exhausted and the price has jumped to \$3 a bushel and is still soaring. The California crop this year is reported to be large and when it comes in the price of beans is expected to go back to about normal. Meantime beans are a luxury in hotels and cafes.

Falls to Wed Typewriter.
New York, Sept. 2.—The old story of a wealthy middle-aged business man and a pretty, girlish typewriter, a casual meeting on a New York Central train, subsequent drives, dinners, theaters, supper parties, presents of shoes, gloves, imported Parisian gowns, diamond-studded watches and other jewels and a love that finally grew cold figures in a suit for \$50,000 damages for breach of promise of marriage commenced by Annie M. Barker of Arlington, N. J., against Charles E. Valentine, for many years buyer for the importing firm of Wood & Seick on Hudson street. They were to have been married. Miss Barker claims, in November, 1896. When this day for the wedding arrived, Miss Barker says, Valentine told her he was not sure he loved her and declined to carry out his promise.

President to Leave Canton.
Canton, O., Sept. 2.—President McKinley and party will leave Canton Wednesday morning for Buffalo, going by way of Cleveland. The itinerary has not been officially announced, but it is understood the party will go on the Fort Wayne to Alliance, thence on the C. & P. to Cleveland, thence on the Lake Shore to Buffalo, reaching Buffalo Wednesday afternoon.

Julius C. Levy is in camp at Lake Koshkonong.

Just About Your Feet

In a few more days all our talk will be given to telling of our new fall shoes, most of which are now on the way from the factories. Meanwhile looking through our stock we find a great many "good things" for the wise shopper—odds and ends—but all of the present season's designing. Some are ladies and some are gents. All of these we have thrown into assorted bargain lots, to close out, disregarding entirely their original cost.
